I'm an optimistic person who enjoys exploring different cultures and meeting new people from all over the world.

experience

English Teacher at the University of Valencia

Valencia, Spain | Sept 2019 - June 2020

- Created and adapted lessons for students and professors
- Provided extra classes and resources for those who were seeking extra support
- Took 4 hours weekly Catalan classes to further immerse myself into the culture
- Initiated online classes and created materials for the students during the pandemic

Barista at Tebi Island

Edinburgh, UK | Aug 2017 - Aug 2019

- Optimized a friendly and positive environment for customers by establishing good relations with regulars.
- Serving customers with quality and efficiency
- Handling cash and card payments with accuracy
- Marketing the local establishment through the use of social media and by providing samples of our products.

education

Complete Web Development 2020 Bootcamp

Udemy Academy | July 2020 - Present

I am currently undertaking a 54-hour online course teaching all the fundamental skills related to web development using the latest technologies such as HTML5, CSS3, Javascript, Bootstrap4, NodeJS, MongoDB and more.

Bachelor's Degree in Computer Science

University of Edinburgh | 2015 - 2019

Graduated with Upper Second Class Honours at the University of Edinburgh. I took courses such as Database Systems, System Design Process, Android Development and Computer Security.

extracurricular

Code First: Girls Instructor

University of Edinburgh | Oct 2018 - Dec 2018

Teaching assistant for a non-profit organization targeted for women who have never been exposed to coding before. I was responsible for promoting the organization to encourage people to join, and to provide assistance during classes.

Turing Fest Volunteer

Edinburgh | Aug 2018

Volunteered at one of the biggest tech events in Europe. My duties throughout the 2-day event included the registration of attendees, speakers and press as well as ensuring that each presentation runs smoothly.

skills & expertise

- Keen eye for effective digital marketing techniques
